

# Thank you!

Thank you all so much for your donations to the school so far, it's enabled us to purchase more equipment to enrich the learning experiences of our children. So far, we have used the donations to build up our Science resource cupboard. As you can see below, we have purchased some data loggers that are being used in Science and Maths which helps children to log data; shadow boxes which help to teach children about light and shadows; light kits which offer a range of equipment enough for a whole class to use at the same time.

We are still paying off the stage, the total cost of which was £6,000

We are now saving towards a set of laptops for children to use. If anyone has some useful contacts that can get us a good deal on these, then please do let us know!
